TRIPLETS PUZZLE: MSIP Week September 18 – 24, 2011

A triplet is a set of three words that are linked by a common fourth word. Here's an example:

MAKER - TENNIS - STICK

What word links these three words? The linking word should appear before or after each of the three words to form well-known compound words or phrases.

The correct answer for this triplet is MATCH as in match *maker*, *tennis match*, and match *stick*.

Here are 17 more triplets for you to solve. After you have solved all of them, read the first letters of the link words **for an important health and safety message**.

1. SMOKE - COMPUTER – PLAY

2. FREE - MAGAZINE - CAPSULE

3. HERRING - CROSS - TAPE

4. MAIL - AMERICAN - LANE
